ABSTRACT

This publication is designed to provide users with trends in quantitative facts relevant to public education in South Carolina. Information for the 1985-86 school year is presented along with information beginning with the reference or base year of 1969-70. The reference year may vary due to the availability of data. The data are presented in tabular format, with state summaries followed by district summaries, on the following topics: state expenditures, enrollment, revenue, expenditures, salary, staff, remedial/compensatory, vocational, Chapter 1 (Title 1), migrants, dropouts, basic skills assessment, statewide testing program, cognitive skills assessment, transportation, school food program, adult education enrollment, graduates, SAT scores, instructional television and radio, and the 10 largest and 10 smallest school districts. The names of state board of education members and of school district superintendents are on the report's inside covers. The appendices contain state department of education staff positions, an organizational chart of the state K-12 administration, a map outline of the 46 counties encompassing 92 school districts in the state, and a 24-item bibliography. FOREWORD

This publication is designed to provide users with trends in quantitative facts relevant to public education in South Carolina. Information for the 1985-86 school year is presented along with information beginning with the reference or base year of 1969-70. The reference year may vary due to the availability of data. Since this publication provides a broad diversity of information, users should refer to the footnotes and listed source documents when making comparisons.

One of the primary audiences for this publication is the South Carolina General Assembly, which is constitutionally responsible for the establishment and maintenance of our system of public eduction. This publication is distributed to the General Assembly and research staff, the Governor and research staff, the chief administrators of local school districts, professional education organizations, the Library of Congress, postsecondary libraries, and the State Library. It is also made available to the general public upon request.

Should additional information or explanations be needed, I urge you to contact the Management Information Section within the Office of Research.

[1] The "Revised Average Salaries" paid classroom teachers for school years 1969-70 through 1984-85 were actual (end-of-year) averages computed by the South Carolina Department of Education and submitted to the National Education Association (NEA) for publication. An "Estimated Average Salary" of $21,428 was submitted to NEA in Fall 1985 for school year 1985-86. The actual (end-of-year) average salary was $21,595. This figure was submitted to NEA during the update cycle and will be shown in NEA's 1987 publications as a "Revised Average Salary."

[2] Southeastern estimated teacher salary was projected by the S.C. Department of Education for 1984-85 school year.

[1] The **Comprehensive Tests of Basic Skills, Form U,** was administered to grades 4, 5, 7, 9, and 11 in 1985-86. In 1981-82, another form of the test was used. Consequently, the test results beginning in the 1982-83 school year are not directly comparable to previous years.

[2] Total number of students completing any part of the test battery.

[3] Students scoring 88 of a possible 117 points on the CSAB.

---

[1] Includes gifted and talented, special education, and other programs.

[2] Since students may be participating in more than one program area and require transportation, the state total for students is a duplicated count.

[3] Student eligibility is determined by family size and income as declared by parents. These students are also eligible for free or reduced-price breakfast if the schools participate in the School Breakfast Program. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the Breakfast Program. Because students who may be eligible for free or reduced-price meals may chose not to apply or participate, the number of eligible students may not represent total eligible students.

[1] Excludes adult, nonpublic school, and public library expenditures.

[2] Excludes adult programs, community services, and pupil activity. Funds expended by county boards and area vocational centers have been prorated to the appropriate districts based on pupils served.

[3] Public school employee fringe benefits are included as expenses at the state level for years 1983-84 through 1985-86.

Explanatory Notes:

Figures for 1969-70 reflect per pupil expenditures based on average daily attendance for grades 1-12. Expenditures were adjusted to exclude expenditures for voluntary kindergarten. All other years were based on average daily membership and include grades K-12. Kindergarten students were included in the per pupil expenditure calculations at .5 FTE.

Current operating expenditures exclude capital outlay and debt retirement accounts.

[1] Includes regular classroom teachers, special education teachers, kindergarten and child development teachers, librarians, guidance counselors, and other professional instructional and instructional-oriented staff.

[2] Full-Time Equivalency (FTE) is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position. All FTE represented above are expressed in tenths.

[1] Includes principals, assistant principals, vocational center administrators, county/district administrative personnel, consultants/coordinators, business personnel, plant and facilities directors and assistants, transportation supervisors/directors, federal project coordinators, health personnel, social workers, attendance personnel, audiovisual supervisors/media specialists, and other professional noninstructional staff.

[2] Full-Time Equivalency (FTE) is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position. All FTE represented above are expressed in tenths.

Explanatory Notes:

Information for 1969-70 is not available by district.

[1] Includes all professional instructional and noninstructional staff.

[2] Full-Time Equivalency (FTE) is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position. All FTE represented above are expressed in tenths.

[1] Descriptors designated with code "00" under the column "District" were used to identify the existence of area vocational center(s) serving more than one district.

[2] Contained in Special Institutions Category.

[3] State Hospital, Williamsburg Manpower Center, Wil Lou Gray Opportunity School, and South Carolina School for the Deaf and the Blind.

Explanatory Notes:

Information for 1969-70 is not available by district.

Duplication of enrollment figures may occur among two or more program areas because students are enrolled in multi-program areas.

Refer to entry 21 in Bibliography (pages 77-78) for source document.

[1] The minimum statewide standard is set at a score of 700 on a scale that may range from 200 to 1100.

Explanatory Notes:

BSAP tests are criterion-referenced and are created to determine whether a student's performance meets the state standard, not for the comparison of districts.

Refer to entry 15 in Bibliography (pages 77-78) for source document.

[1] The minimum statewide standard is set at a score of 700 on a scale that may range from 200 to 1100.

Explanatory Notes:

BSAP tests are criterion-referenced and are created to determine whether a student's performance meets the state standard, not for the comparison of districts.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11 (the students in grades 9 and 11 were tested for the first time in 1985-86). There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

Explanatory Notes:

The Comprehensive Tests of Basic Skills, Form U, is administered to students in grades 4, 5, 7, 9, and 11 (the students in grades 9 and 11 were tested for the first time in 1985-86). There are seven skill areas tested; only four of the areas are displayed here. More detailed information about test performance may be obtained from the Educational Assessment Section, Office of Research, South Carolina Department of Education.

[1] Student eligibility for free or reduced-price meals is determined by family size and income as declared by parents. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the School Breakfast Program. If the schools participate in the School Breakfast Program, students are also eligible for free or reduced-price breakfast. Because students who may be eligible for free or reduced-price meals may chose not to apply or participate, the number and rate of eligible students may not represent total elegible students.

[2] Average Daily Membership, 15-Day Period. Membership figures include grades K-12 although school meals may not be made available to kindergarten students in all districts.

[3] Percent was computed excluding the number of eligible students and enrollment in South Carolina Youth Services.

[1] Student eligibility for free or reduced-price meals is determined by family size and income as declared by parents. All South Carolina public schools participate in the School Lunch Program, but not all schools participate in the School Breakfast Program. If the schools participate in the School Breakfast Program, students are also eligible for free or reduced-price breakfast. Because students who may be eligible for free or reduced-price meals may chose not to apply or participate, the number and rate of eligible students may not represent total eligible students.

[2] Average Daily Membership, 15-Day Period. Membership figures include grades K-12 although school meals may not be made available to kindergarten students in all districts.

[3] Percent was computed excluding the number of eligible students and enrollment in South Carolina Youth Services.
